Select Pass and Multi Pass products are a line of individually coded, rolling code transmitters and receiver products. Both products are available with 2 or 4 buttons.

The two and four button transmitters are small key chain size. The lightweight, contoured design fits easily into your hand and is convenient to put into a pocket or purse. Powered by replaceable internal CR-type lithium batteries that have a long life expectancy. Devices automatically stops transmitting if a button is held down too long.

The two families of transmitters include:
Select Pass (RTSP) an RF transmitter only. (Polypropylene case)
Multi-Pass (RTMP) an RF transmitter with “HID Proximity” inside. (Polypropylene case)
Select Pass (RTSPX2 or RTSPX4) an RF transmitter only. (Combination metal and polypropylene case)
Multi-Pass (RTMPX2 or RTMPX4) an RF transmitter with “HID Proximity” inside. (Combination metal and polypropylene case)

Imagine the convenience of having a single device with two technologies providing a user with access control that works seamlessly. With Multi-Pass you can open the gate with the RF transmitter, and the club house door with the proximity. The Multi-Pass transmitter and proximity coil are programmed with the same code number making database management simple and efficient.

The Select Pass Receivers are available in two types, Wiegand output, or a self learning stand alone with relay output.
## FEATURES

### Transmitters: Select pass / Multi pass
- Rolling code technology prohibits the device number from being copied for better security.
- Transmitters are individually coded devices interfacing with a frequency matched receiver. For use with any standard Wiegand access control system.
- Transmitter range is nominally 100 feet.
- Lithium battery powered.
- Batteries are readily available and easily replaceable.
- Built in activation light confirms transmitter actuation.
- 2 second transmission time limit for each activation extends battery life.
- Light weight, key chain size, space age design.
- Recessed button design reduces accidental activation and allows easy operation even with long finger nails or large hands.

### Multi pass:
- Additional features
- HID proximity tag built in.
- The HID proximity tag and the RF transmitter are programmed to the same output code for simple data management.

### Receiver types:
- 26-bit Wiegand output.
- Stand alone self learning with relay output.

## APPLICATIONS
- Gated communities or commercial use.
- Apartment building access.
- Condominium access.
- Townhouses.
- Retirement homes / Convalescent homes.
- Residential gates and garages.
- SES Select Gate SG3DMR with built-in receiver.

## SPECIFICATIONS

### Transmitters: RTSP — RTMP Rolling code
- **Material used:** High impact, fracture resistant plastic.
- **Output:** Radio frequency rolling code @ 433 MHz for 2 seconds max.
- **Memory type:** Non-volatile EE prom.

#### RTSP1 (one button) / RTSP2 (two button)
- **Size:** 1½” x 2 5/16” x ½”
- **Weight:** 1 oz.
- **Power:** Batteries Two 3 volt Lithium batteries.

#### With HID proximity:
- **Weight:** 1 oz.
- **HID Proximity insert:**
- **Power:** none required for prox coil.
- **Memory Type:** Non-volatile EE prom.

### Transmitters: RTSPX — RTMPX Rolling Code (one-two or four button)
- **Material used:** Metal frame and polypropylene plastic.
- **Output:** Radio frequency rolling code @ 433 MHz for 2 seconds max.
- **Memory type:** Non-volatile EE prom.

#### Size:
- 2” x 1 1/4” x ½”
- **Power:** Single CR-type lithium cell.

#### With HID proximity:
- **Weight:** 1.5 oz.
- **HID Proximity insert:**
- **Power:** none required for prox coil.
- **Memory Type:** Non-volatile EE prom.

### Receiver: Rolling code / Super-heterodyne.
- **Construction:** High impact, fracture resistant plastic.
- **Power Input:** 12/24 VAC or VDC.
- **Mounting:** Protected area needed.
- **Operating temperature:** -59ºF to +130ºF (-15ºC to +55ºC)

#### RHRFSPWV2 (Wiegand output)
- **Size:** 5½” x 4 1/3” x 1 5/8”
- **Weight:** 8 oz.

#### RHRFSP20 (self learning stand alone)
- **Size:** 4” x 2¼” x 1”
- **Memory:** 20 codes
- **Weight:** 5 oz.
- **Relay Output:** Form “C” dry contact

**Note:**
Products covered under FCC I.D. numbers: ON3MPER2B, ON3MPSDT2, ON3MRRE, ON3TXPRQ2.
