

SELECT GATE SOFTWARE

Programming Software for Windows 95 / 98 / ME / 2000 / XP

The screenshot shows the 'Sample Residence' window in Select Gate Software. It features a menu bar with options like 'Exit Phone', 'Edit Phone', 'Program Enhance', 'Dig. Call Forward', 'Change Time/Hol', 'Send Receive', 'Add Delete', 'View Activity Log', 'View Reports', 'Terminal', and 'Exit as Finished'. Below the menu is a table with columns: 'Dist/Type', 'Loc', 'Name', 'Data', 'Stat', 'Open', 'Setup Date', 'Action', and 'Time/Zone'. The table lists various phone numbers and cards, such as 'Phone 01 NAN HOUSE (512) 995-1112' and 'Card 01 CF8 818-00850'. To the right of the table, there are three progress indicators: 'Phones Used - 3 of 10', 'PIN's Used - 3 of 100', and 'Card's Used - 5 of 100'. A 'Select Gate CD' image is shown to the right of the screenshot.

 **Select Gate Software is provided on CD**

Select Gate Software is the latest release of programming software from Select Engineered Systems. This industry leading package is compatible with Windows 95, 98, ME, 2000 and XP. Select Gate Software will program the SG-2M series products. The outstanding **NEW** features added to this 32 bit software program include:
